### **NEW ANNEX 8 (SCHEDULES OF SPECIFIC COMMITMENTS ON SERVICES)**

## **Annex 8 Part A: China Schedule of Specific Commitments on Services**

Sector or Subsector	Limitation on Market Access	Limitation on National Treatment	Additional Commitments
<b>I. HORIZONTAL COMMITMENTS<sup>1</sup></b>			
<b>ALL SECTORS INCLUDED IN THIS SCHEDULE</b>	<p>(1) Unbound with respect to the social services established or maintained</p> <p>(2) for a public purpose. Such services may be subject to public monopolies</p> <p>(3) or to exclusive rights granted to private operators.</p> <p>(3) In China, foreign invested enterprises include foreign capital enterprises (also referred to as wholly-owned enterprises) and joint venture enterprises and there are two types of joint venture enterprises: Equity joint ventures and contractual joint ventures.<sup>2</sup></p> <p>The proportion of foreign investment in an equity joint venture shall be no</p>	<p>(3) Unbound for all the existing subsidies to domestic services suppliers in the sectors of audio-visual, aviation and medical services.</p>	

<sup>1</sup> In this commitment, the mention of “foreign” in both horizontal and specific commitments refers to New Zealand.

<sup>2</sup> The terms of the contract, concluded in accordance with China's laws, regulations and other measures, establishing a "contractual joint venture" govern matters such as the manner of operation and management of the joint venture as well as the investment or other contributions of the joint venture parties. Equity participation by all parties to the contractual joint venture is not required, but is determined pursuant to the joint venture contract. “Foreign invested enterprise” in this schedule means a foreign invested enterprise duly constituted or otherwise organized under “Foreign Investment Law of the People’s Republic of China (2019)”.

Sector or Subsector	Limitation on Market Access	Limitation on National Treatment	Additional Commitments
	<p>less than 25 percent of the registered capital of the joint venture.</p> <p>The establishment of branches by foreign enterprises is unbound, unless otherwise indicated in specific sub-sectors, as the laws and regulations on branches of foreign enterprises are under formulation.</p> <p>Representative offices of foreign enterprises are permitted to be established in China, but they shall not engage in any profit-making activities except for the representative offices under CPC 861, 862, 863, 865 in the sectoral specific commitments.</p> <p>The land in the People's Republic of China is State-owned. Use of land by enterprises and individuals is subject to the following maximum term limitations:</p>

## I. SPECIFIC COMMITMENTS

### 1. BUSINESS SERVICES

A. Professional Services	(1) None	(1) None	(1) In accordance with the Chinese laws, regulations and rules, foreign law firms which have established their representative offices in the China (Shanghai) Pilot Free Trade Zone ("FTZ") may enter into contract with Chinese law firms in the FTZ. Based on such contract, these foreign and Chinese law firms may dispatch their lawyers to each other to act as legal counsels.
(a) Legal Services (CPC 861, excluding Chinese law practice)	<p>(2) None</p> <p>(3) Foreign law firms can provide legal services only in the form of representative offices.</p> <p>Representative offices can engage in profit-making activities.</p> <p>Business scope of foreign representative offices is only as follows:</p> <p>(a) to provide clients with consultancy on the legislation of the country/region where the lawyers of the law firm are permitted to engage in lawyer's professional work, and on international conventions and</p>	<p>(2) None</p> <p>(3) All representatives shall be resident in China no less than six months each year. The representative office shall not employ Chinese national registered lawyers.</p>	<p>For the aforementioned dispatchment, it means the Chinese law firms may dispatch their lawyers to the foreign law firms to act as legal counsels on</p>

Sector or Subsector	Limitation on Market Access	Limitation on National Treatment	Additional Commitments
	<p>practices;</p> <p>(b) to handle, when entrusted by clients or Chinese law firms, legal affairs of the country/region where the lawyers of the law firm are permitted to engage in lawyer's professional work;</p> <p>(c) to entrust, on behalf of foreign clients, Chinese law firms to deal with the Chinese legal affairs;</p> <p>(d) to enter into contract to maintain long-term entrustment relations with Chinese law firms for legal affairs;</p> <p>(e) to provide information on the impact of the Chinese legal environment.</p> <p>Entrustment allows the foreign representative office to directly instruct lawyers in the entrusted Chinese law</p>		<p>Chinese law and international law practice, and the foreign law firms may dispatch their lawyers to the Chinese law firms to act as legal counsels on foreign law and international practice. The two sides shall perform the cooperation within their respective scope.</p> <p>(2) In accordance with the Chinese laws, regulations and rules, foreign law firms which have established their representative offices in the China (Shanghai) Free Trade Zone ("FTZ") are permitted to form commercial association with Chinese law firms in Shanghai FTZ. Within the validity of commercial</p>

Sector or Subsector	Limitation on Market Access	Limitation on National Treatment	Additional Commitments
	<p>firm, as agreed between both parties. The representatives of a foreign law firm shall be practitioner lawyers who are members of the bar or law society in New Zealand and have practiced for no less than two years in China. The Chief representative shall be a partner or equivalent (e.g. member of a law firm of a limited liability corporation) of a law firm of New Zealand and have practiced for no less than three years outside of China.</p>		<p>association, the two law firms from both sides respectively have independent legal status, name, financial operation, and bear civil liabilities independently. Clients of the commercial association are not limited within Shanghai FTZ. Foreign lawyers in this type of commercial association are not permitted to conduct the practice of Chinese law.</p>
(b) Accounting, auditing and book-keeping services (CPC 862)	<p>(1) None</p> <p>(2) None</p> <p>(3) Partnerships or incorporated accounting firms are limited to Certified Public Accountants (CPAs) licensed by the</p>	<p>(1) None</p> <p>(2) None</p> <p>(3) None</p>	<p>- Foreign accounting firms are permitted to affiliate with Chinese firms and enter into contractual agreements with their affiliated firms in the other WTO Members.</p>

## Appendix 1

### Reference Paper

#### Scope

The following are definitions and principles on the regulatory framework for the basic telecommunications services.

#### Definitions

Users mean service consumers and service suppliers.

Essential facilities mean facilities of a public telecommunications transport network or service that:

- (a) are exclusively or predominantly provided by a single or limited number of suppliers; and
- (b) cannot feasibly be economically or technically substituted in order to provide a service.

A major supplier is a supplier which has the ability to materially affect the terms of participation (having regard to price and supply) in the relevant market for basic telecommunications services as a result of:

- (a) control over essential facilities; or
- (b) use of its position in the market.

#### 1. Competitive safeguards

##### 1.1 Prevention of anti-competitive practices in telecommunications

Appropriate measures shall be maintained for the purpose of preventing suppliers who, alone or together, are a major supplier from engaging in or continuing anti-competitive practices.

##### 1.2 Safeguards

The anti-competitive practices referred to above shall include in particular:

- (a) engaging in anti-competitive cross-subsidization;
- (b) using information obtained from competitors with anti-competitive results; and

- (c) not making available to other services suppliers on a timely basis technical information about essential facilities and commercially relevant information which are necessary for them to provide services.

## 2. Interconnection

2.1 This section applies to linking with suppliers providing public telecommunications transport networks or services in order to allow the users of one supplier to communicate with users of another supplier and to access services provided by another supplier, where specific commitments are undertaken.

### 2.2 Interconnection to be ensured

Interconnection with a major supplier will be ensured at any technically feasible point in the network. Such interconnection is provided.

- (a) under non-discriminatory terms, conditions (including technical standards and specifications) and rates and of a quality no less favourable than that provided for its own like services or for like services of non-affiliated service suppliers or for its subsidiaries or other affiliates;
- (b) in a timely fashion, on terms, conditions (including technical standards and specifications) and cost-oriented rates that are transparent, reasonable, having regard to economic feasibility, and sufficiently unbundled so that the supplier need not pay for network components or facilities that it does not require for the service to be provided; and
- (c) upon request, at points in addition to the network termination points offered to the majority of users, subject to charges that reflect the cost of construction of necessary additional facilities.

### 2.3 Public availability of the procedures for interconnection negotiations

The procedures applicable for interconnection to a major supplier will be made publicly available.

### 2.4 Transparency of interconnection arrangements

It is ensured that a major supplier will make publicly available either its interconnection agreements or a reference interconnection offer.

## 2.5 Interconnection: dispute settlement

A service supplier requesting interconnection with a major supplier will have recourse, either:

- (a) at any time; or
- (b) after a reasonable period of time which has been made publicly known

to an independent domestic body, which may be a regulatory body as referred to in paragraph 5 below, to resolve disputes regarding appropriate terms, conditions and rates for interconnection within a reasonable period of time, to the extent that these have not been established previously.

## 3. Universal service

Any Member has the right to define the kind of universal service obligation it wishes to maintain. Such obligations will not be regarded as anti-competitive *per se*, provided they are administered in a transparent, non-discriminatory and competitively neutral manner and are not more burdensome than necessary for the kind of universal service defined by the Member.

## 4. Public availability of licensing criteria

Where a licence is required, the following will be made publicly available:

- (a) all the licensing criteria and the period of time normally required to reach a decision concerning an application for a licence; and
- (b) the terms and conditions of individual licences.

The reasons for the denial of a licence will be made known to the applicant upon request.

## 5. Independent regulators

The regulatory body is separate from, and not accountable to, any supplier of basic telecommunications services. The decisions of

and the procedures used by regulators shall be impartial with respect to all market participants.

6. Allocation and use of scarce resources

Any procedures for the allocation and use of scarce resources, including frequencies, numbers and rights of way, will be carried out in an objective, timely, transparent and non-discriminatory manner. The current state of allocated frequency bands will be made publicly available, but detailed identification of frequencies allocated for specific government uses is not required.

## Group on Basic Telecommunications

Note by the Chairman

Revision

*It has been suggested by a number of delegations that it might be helpful to produce a brief and simple note on assumptions applicable to the scheduling of commitments in basic telecoms. The purpose of the attached note is to assist delegations in ensuring the transparency of their commitments and to promote a better understanding of the meaning of commitments. This note is not intended to have or acquire any binding legal status.*

## NOTES FOR SCHEDULING BASIC TELECOM SERVICES COMMITMENTS

1. Unless otherwise noted in the sector column, any basic telecom service listed in the sector column:

- (a) encompasses local, long distance and international services for public and non-public use;
- (b) may be provided on a facilities-basis or by resale; and
- (c) may be provided through any means of technology(e.g., cable<sup>1</sup>, wireless, satellites).

---

<sup>1</sup>Including all types of cable.

2. Subsector (g) --private leased circuit services -- involves the ability of service suppliers to sell or lease any type of network capacity for the supply of services listed in any other basic telecom service subsector unless otherwise noted in the sector column. This would include capacity via cable, satellite and wireless network.

3. In view of points 1 and 2 above, it should not be necessary to list cellular or mobile services as a separate subsector. However, a number of Members have done so, and a number of offers have commitments only in these subsectors. Therefore, in order to avoid extensive changes in schedules, it would seem appropriate for Members to maintain separate entries for these subsectors.

## CHAIRMAN'S NOTE

### Market Access Limitations on Spectrum Availability

Many Members have entries in the market access column of their schedules indicating that commitments are "subject to availability of spectrum/frequency" or similar wording. In light of the physical nature of spectrum and the constraints inherent in its use, it is understandable that Members may have sought to rely on these words to adequately protect legitimate spectrum management policies. There is, however, doubt that words such as "subject to availability of spectrum/frequency" as listed in the market access column of many Members' schedules achieve that objective.

Spectrum/frequency management is not, *per se*, a measure which needs to be listed under Article XVI. Furthermore under the GATS each Member has the right to exercise spectrum/frequency management, which may affect the number of service suppliers, provided that this is done in accordance with Article VI and other relevant provisions of the GATS. This includes the ability to allocate frequency bands taking into account existing and future needs. Also, Members which have made additional commitment in line with the Reference Paper on regulatory principles are bound by its paragraph 6.

Therefore, words such as "subject to availability of spectrum/frequency" are unnecessary and should be deleted from Members' schedules.

## Appendix 2

### Distribution Services

Distribution trade services are comprised of four main sub-sectors:

- commission agents services;
- wholesaling;
- retailing; and
- franchising.

The principal services rendered in each subsector can be characterized as reselling merchandise, accompanied by a variety of related subordinated services, including inventory management; assembly, sorting and grading of bulk lots; breaking bulk lots and redistributing into smaller lots; delivery services; refrigeration, storage, warehousing and garage services; sales promotion, marketing and advertising, installation and after sales services including maintenance and repair and training services. Distribution services are generally covered by CPC 61, 62, 63 and 8929.

Commission Agents' Services consist of sales on a fee or contract basis by an agent, broker or auctioneer or other wholesalers of goods/merchandise and related subordinated services.

Wholesaling consist of the sale of goods/merchandise to retailers to industrial, commercial, institutional, or other professional business users, or to other wholesalers and related subordinated services.

Retailing services consist of the sale of goods/merchandise for personal or household consumption either from a fixed location (e.g., store, kiosk, etc.) or away from a fixed location and related subordinated services.

Franchising services consist of the sale of the use of a product, trade name or particular business format system in exchange for fees or royalties. Product and trade name franchising involves the use of a trade name in exchange for fees or royalties and may include an obligation for exclusive sale of trade name products. Business format franchising involves the use of an entire business concept in exchange for fees and royalties, and may include the use of a trade name, business plan, and training materials and related subordinated services.

## Appendix 3

### Insurance: Definition of "Master Policy"

Master policy is the policy that provides blanket coverage for the same legal person's property and liabilities located in different places. Master policy may only be issued by the business department of an insurer's head office or that of its authorized province-level branch offices. Other branches are not allowed to issue master policy.

Master policy business with the state key construction projects as its subject-matter insured. If investors on the state key construction projects (i.e., projects that are so listed and annually announced by the State Development and Planning Commission) meet either of the following requirements, they may purchase master policy from insurers that are located in the same place as the investors' legal persons do.

The investment on the subject-matter insured is all from China (including the reinvestment from the foreign-invested enterprises in China), and the sum of investment of the investor accounts for over 15 per cent of the total investment.

The investment is partially from abroad, and partially from China (including the reinvestment from the foreign-invested enterprises in China), and the sum of investment of the Chinese investor accounts for over 15 per cent for the total domestic investment.

For those projects that draw investment all from abroad, every insurer may provide coverage in the form of master policies.

Master policy covering different subjects-matter insured of the same legal person. For those subjects-matter insured located in different places and owned by the same legal person (excluding financial, railway, and post and telecommunications industries and enterprises), master policy may be issued on the basis of either of the following conditions.

For the sake of payment of premium tax, insurance companies incorporated where the legal person or accounting unit of the insurance applicant is located are allowed to issue master policy.

If over 50 per cent of insurance amount of the subject-matter insured is from a larger or medium sized city, then insurers in that city

are allowed to issue master policy, no matter whether the insurance applicant's legal person or accounting unit is located in the city.

Motor insurance, credit insurance, employer liabilities insurance, statutory insurance, and other insurance business excluded by the CIRC cannot be underwritten or co-insured by insurers located other than where the subject-insured are located, or covered under a master policy.

## China Commitments under Article 7(3) of Chapter 9 (Trade in Services)

### I. Horizontal Limitations

In terms of ratchet (R) commitments, the following rights are reserved by China:

- (a) China reserves the right to adopt or maintain any measure with respect to the supply of service by presence of natural persons.
- (b) China's R commitments do not apply its Horizontal Commitments.
- (c) China remains unbound for all subsidies to domestic services suppliers except those committed by China in its WTO accession.

### II. Sectoral Coverage of Ratchet (R) Commitments:

<b>1. BUSINESS SERVICES</b>	
<b>A. Professional Services</b>	
(a) legal services (CPC 861, excluding Chinese law practice)	Ratchet (R)
(c) taxation services (CPC 8630)	Ratchet (R)
(d) architectural services (CPC 8671)	Ratchet (R)
(e) engineering services (CPC 8672)	Ratchet (R)
(g) urban planning services (except general urban planning) (CPC 8674)	Ratchet (R)
<b>B. Computer and Related Services</b> (Computer and related services do not cover the economic activity consisting of the provision of content services which require computer and related services as means of supply)	
Consultancy services related to the installation of computer hardware (CPC 841)	Ratchet (R)
<b>F. Other Business Services</b>	
(c) Management Consulting services (CPC 865)	Ratchet (R)
(e) Technical testing and analysis services (CPC 8676)	Ratchet (R)

(f) Services incidental to forestry (CPC 8814)	Ratchet (R)
(o) Building-cleaning services (CPC 874)	Ratchet (R)
(q) Packaging services (CPC 876)	Ratchet (R)
(s) Convention services (CPC 87909)	Ratchet (R)
(t) Translation and interpretation services (CPC 87905)	Ratchet (R)
- Maintenance and repair services of office machinery and equipment including computers (CPC 845 and 886)	Ratchet (R)
<b>2. COMMUNICATION SERVICES</b>	
<b>B. Courier Services</b> (CPC 75121, except for those specifically reserved to Chinese postal authorities by the related law at the time of China's accession to WTO on December 11th 2001)	Ratchet (R)
<b>D. Audiovisual Services</b>	
- Cinema Theatre Services	Ratchet (R)
<b>4. DISTRIBUTION SERVICES (as defined in Appendix 2)</b>	
<b>D. Franchising</b>	Ratchet (R)
<b>9. TOURISM AND TRAVEL RELATED SERVICES</b>	
<b>A. Hotels (including apartment buildings) and Restaurants (CPC 641-643)</b>	Ratchet (R)
<b>11. TRANSPORT SERVICES</b>	
<b>E. Rail Transport Services</b>	Ratchet (R)
<b>F. Road Transport Services</b>	
Passenger Transportation	Ratchet (R)
- Interurban regular transportation (CPC 71213)	
- Freight inspection covered by CPC 749, excluding statutory inspection services for freight inspection services	Ratchet (R)

**Annex 8 Part B: New Zealand Schedule of Specific Commitments  
on Services**

## ATTACHMENT A

### NOTES TO THE SCHEDULE

1. Specific commitments in this schedule are prepared in accordance with the WTO Secretariat paper entitled "Scheduling of Initial Commitments on Trade in Services: Explanatory Note" (MTN.GNS/W/164). The classification of sectors in this schedule is based on the 1991 provisional Central Product Classification (CPC) of the United Nations Statistical Office, while the ordering reflects the classification system used by the WTO Secretariat in MTN.GNS/W/120. In the context of CPC listings in the schedule, the use of \*\* against individual CPC listings indicates that the service specified constitutes only part of the total range of activities covered by the CPC concordance.

#### Overseas Investment

2. An "overseas person" is defined as an individual not normally resident in New Zealand; a company not incorporated in New Zealand; a New Zealand-incorporated company in which 25 per cent or more of any class of shares or 25 per cent or more of the voting power is held by overseas persons; or a nominee of the overseas person, whether or not the nominee is himself/herself an overseas person.

#### Maritime Transport Services

3. Cabotage: for purposes of this schedule only, cabotage is defined as the transportation of passengers or goods between a port located in New Zealand and another port located in New Zealand and traffic originating and terminating in the same port located in New Zealand.

4. Maritime Freight Forwarding Services: the activity consisting of organising and monitoring shipment operations on behalf of shippers, through the acquisition of transport and related services, preparation of documentation and provision of business information.

5. Container Station and Depot Services: activities consisting of storing containers, whether in port or inland, with a view to their stuffing/stripping, repairing and making them available for shipments.

6. Maritime Agency Services: activities consisting of representing as an agent, the business interests of one or more shipping lines, for the following purposes:

- Marketing and sales of maritime transport and related services, from quotation to invoicing, and issuing bills of lading on behalf of the companies; acquisition and resale of the necessary related services, preparation of documentation, and provision of business information;
- Acting on behalf of the companies organising the call of a ship or taking over cargoes when required.

ATTACHMENT B  
REFERENCE PAPER

Scope

The following are definitions and principles on the regulatory framework for the basic telecommunications services<sup>9</sup>.

Definitions

Users mean service consumers and service suppliers.

Essential facilities<sup>10</sup> mean facilities of a public telecommunications transport network or service that

(a) are exclusively or predominantly provided by a single or limited number of suppliers; and

(b) cannot feasibly be economically or technically substituted in order to provide a service.

A major supplier is a supplier which has the ability to materially affect the terms of participation (having regard to price and supply) in the relevant market for basic telecommunications services as a result of:

(a) control over essential facilities; or

(b) use of its position in the market.

1. Competitive safeguards

1.1 Prevention of anti-competitive practices in telecommunications

Appropriate measures shall be maintained for the purpose of preventing suppliers who, alone or together, are a major supplier from engaging in or continuing anticompetitive practices.

1.2 Safeguards

The anti-competitive practices referred to above shall include in particular:

(a) engaging in anti-competitive cross-subsidization;

9 This applies only to suppliers of basic telecommunications services and not to end-users of such services.

10 This definition of "essential facilities" will be applied only to the extent consistent with New Zealand's competition policy regime, which regulates the activities of "dominant suppliers".

(b) using information obtained from competitors with anti-competitive results;

and

(c) not making available to other services suppliers on a timely basis technical information about essential facilities and commercially relevant information which are necessary for them to provide services.

## 2. Interconnection

2.1 This section applies to linking with suppliers providing public telecommunications transport networks or services in order to allow the users of one supplier to communicate with users of another supplier and to access services provided by another supplier.

### 2.2 Interconnection to be ensured

Interconnection with a major supplier will be ensured at any technically feasible point in the network. Such interconnection is provided:

(a) under non-discriminatory terms, conditions (including technical standards and specifications) and rates and of a quality no less favourable than that provided for its own like services or for like services of non-affiliated service suppliers or for its subsidiaries or other affiliates;

(b) in a timely fashion, on terms, conditions (including technical standards and specifications) and cost-oriented rates that are transparent, reasonable, having regard to economic feasibility, and sufficiently unbundled so that the supplier need not pay for network components or facilities that it does not require for the service to be provided; and

- (b) upon request, at points in addition to the network termination points offered to the majority of users, subject to charges that reflect the cost of construction of necessary additional facilities.

### 2.3 Public availability of the procedures for interconnection negotiations

The procedures applicable for interconnection to a major supplier will be made publicly available.

### 2.4 Transparency of interconnection arrangements

It is ensured that a major supplier will make publicly available either its interconnection agreements or a reference interconnection offer.

### 2.5 Interconnection: dispute settlement

A service supplier requesting interconnection with a major supplier will have recourse, either:

- (a) at any time or
- (b) after a reasonable period of time which has been made publicly known to an independent domestic body, which may be a regulatory body as referred to in paragraph 5 below, to resolve disputes regarding appropriate terms, conditions and rates for interconnection within a reasonable period of time, to the extent that these have not been established previously.

## 3. Universal service

Any Member has the right to define the kind of universal service obligation it wishes to maintain. Such obligations will not be regarded as anti-competitive *per se*, provided they are administered in a transparent, non-discriminatory and competitively neutral manner and are not more burdensome than necessary for the kind of universal service defined by the Member.

## 4. Public availability of licensing criteria

Where a licence is required, the following will be made publicly available:

(a) all the licensing criteria and the period of time normally required to reach a decision concerning an application for a licence; and

(b) the terms and conditions of individual licences.

The reasons for the denial of a licence will be made known to the applicant upon request.

5. Independent regulators

The regulatory body is separate from, and not accountable to, any supplier of basic telecommunications services. The decisions of and the procedures used by regulators shall be impartial with respect to all market participants.

6. Allocation and use of scarce resources

Any procedures<sup>12</sup> for the allocation and use of scarce resources, including frequencies, numbers and rights of way, will be carried out in an objective, timely, transparent and non-discriminatory manner. The current state of allocated frequency bands will be made publicly available, but detailed identification of frequencies allocated for specific government uses is not required.

---

<sup>12</sup> Such procedures may be administered by means of a variety of mechanisms, including laws and regulations, public tendering process and consultative processes.

Modes of supply: 1) Cross-border supply 2) Consumption abroad 3) Commercial presence

Sector or Sub-sector	Limitations on Market Access	Limitations on National Treatment	Additional Commitments
<b>I. HORIZONTAL COMMITMENTS</b>			
ALL SECTORS INCLUDED IN THIS SCHEDULE		<p>3) Overseas Investment Office (OIO) approval is required for the following investments by an "overseas person".<sup>14 15</sup></p> <p>(a) acquisition or control of 25 per cent or more of the shares or voting power in a company where either the consideration for the transfer or the value of the assets of the company exceeds \$NZ10 million;</p> <p>(b) the establishment of new business in New Zealand where the total expenditure in setting up the business exceeds \$NZ10 million;</p> <p>(c) the acquisition of the assets of the business where the total consideration paid or payable for the assets exceeds \$NZ10 million;</p> <p>(d) the issue or allotment of shares where the 25 per cent threshold</p>	

<sup>14</sup> See Attachment A.2

<sup>15</sup> In accordance with Articles 5 of Chapter 9 (Trade in Services), 137(2) and 139 of the Agreement, China is entitled to the monetary screening thresholds of \$100 million for government investors and \$200 million for non-government investors in the circumstances set out under the Overseas Investment Act 2005 and the Overseas Investment (CPTPP) Amendment Regulations 2018.

Modes of supply: 1)Cross-border supply    2) Consumption abroad    3) Commercial presence

<b>7. FINANCIAL SERVICES</b>			
<ol style="list-style-type: none"> <li>1. New Zealand undertakes its specific commitments on Financial Services in accordance with the provisions of the WTO GATS "Understanding on Commitments in Financial Services" (the Understanding).</li> <li>2. These commitments on financial services are subject to the general limitations contained in the "Horizontal Commitments" section of this Schedule.</li> <li>3. Market access and national treatment commitments in Modes (1) and (2) are bound to the extent of the obligations in paragraphs B.3 and B.4 of the Understanding.</li> <li>4. The admission to the market of new financial services or products may be subject to the existence of, and consistency with, a regulatory framework aimed at achieving the objectives indicated Article 2(a) of the GATS Financial Services Annex.</li> <li>5. Mode 3 commitments are subject to the provisions of the Financial Reporting Act 1993 and the Companies Act 1993. These require overseas companies to prepare financial statements on an annual basis comprising a balance sheet, a profit and loss statement and (if required by an applicable financial reporting standard approved by the Accounting Standards Review Board) a statement of cash flows. The Acts also require such financial statements in relation to an overseas company's New Zealand business. The Acts require the following companies to deliver annual audited financial statements to the Registrar of Companies for registration: (a) issuers</li> </ol>

## New Zealand Commitments under Article 7(3) of Chapter 9 (Trade in Services)

1. This schedule contains the subsectors with commitments on ratchet, for the purposes of Article 7(3) of Chapter 9 (Trade in Services), for modes 1, 2 and 3.
2. For greater certainty, New Zealand's ratchet commitments do not apply to measures with respect to the supply of service by presence of natural persons.
3. Ratchet does not apply to any of New Zealand's horizontal commitments.

New Zealand sectoral coverage under Article 7(3) of Chapter 9 (Trade in Services):

<b>F. Other Business Services</b>	
(f) Services incidental to animal husbandry (CPC 8812)	Ratchet (R)
